

MOHD AMINUDDIN

Fullstack Developer

CAREER SUMMARY

Full Stack Developer with 3+ years of experience specialising in backend development using Laravel and PHP, with growing expertise in frontend technologies (Vue.js, React) and DevOps practices. At Edaran IT Services (MIDC Technology), led backend development for the N9PAY government payment gateway portal – successfully delivering API integrations between third-party agencies and the payment system, resolving UAT and production bugs, and maintaining SLA compliance under CMMI standards. Proven track record of delivering projects on time, communicating effectively with stakeholders, and contributing across the full software delivery lifecycle.

WORK EXPERIENCE

Software Developer

Edaran IT Services Sdn Bhd (MIDC Technology)
Feb 2024 – Present

- Delivered backend solutions across government payment gateway, verification, e-commerce, financial assistance, and inventory management systems.
- Designed a reusable SDK/API Kit that streamlined government agency onboarding and API integration for the N9PAY platform.
- Successfully implemented secure RESTful API integrations between government agencies and enterprise systems.
- Worked directly with cross-functional teams and external government agencies to deliver secure, scalable, and maintainable software solutions.

Software Engineer

Object Expression Sdn Bhd
Sept 2022 – Feb 2024

- Built and maintained RESTful APIs using Laravel for integration with cross-platform mobile applications.
- Developed and supported mobile applications using Xamarin (C#), ensuring stability, performance, and feature updates.
- Contributed to Linux server configuration including Nginx setup and basic DevOps tasks to support application deployment.
- Collaborated with cross-functional teams using Git, GitHub, and Bitbucket for version control and code management.

Software Engineer Intern

Object Expression Sdn Bhd
Jan 2020– Jun 2022

- Contributed to web application development using PHP and the Laravel framework across multiple client projects.
- Maintained and enhanced front-end interfaces, focusing on responsiveness and user experience.
